Tornar [3]

Construction workshops are scheduled for **December the 29th and 30th**, aimed at children over 6 years old. With these workshops, which will be held at Plaça Nova, the Architects' Association opens its doors to host children activities during Christmas holidays.

Children will play with Kapla, which is an educational construction game, based on rectangular pieces of wood, all the same size, with which you can build very different figures. On December the 29th, children will reproduce **"Barcelona cloisters and squares"** and on the 30th, they will build **"Barcelona towers and Eixample"**.

View the **schedules** [4] of both workshops and enroll your children at activitatsculturals@coac.net [5]

Workshops are free of charge for COAC members.
