Presentation

For thirty-seven years, the Association of Architects for the Defense and Intervention in the Architectural Heritage (AADIPA) of College of Architects of Catalonia (COAC) society, organizes the Cours. International Conference on Architectural Heritage Intervention. This year will take place, from **17th al 20th December, the XXXVIII edition, under the title Tradicional Architecture: Essence or form. An open debate on the intervention in vernacular architecture.**

In this workshop we would like to discuss interdisciplinary issues affecting today?s interventions, such as heritage as a time reference, a territory and a community. It is proposed to reflect on integration systems within the new material conditions, and the criteria adopted when defining intervention, in the solution of pathologies, in the adaptation to technical regulations, and in the provision of new facilities and services.

Provided to enable these objectives we count on the input of national experts, from Spain, as well as of specialists from abroad, who will share their experiences, focusing on different aspects.
