Forensic Architecture Expert's Association of Catalonia (AAEPFC)

This association is made up of professionals with experience and an interest in the provision of expert forensic judgements. Under the auspices of the Governing Board of the Architects? Association, it looks after the administration of the list of forensic experts that is made available to the Courts of Justice, government agencies and the general public. It also organizes courses and events relating to the legal aspects of professional practice and looks after publications associated with this expert sphere.
