The Jury of 'Espai Barça' unanimously chose the proposal from the team **Nikken Sekkei + Pascual i Ausió Arquitectes** as the winner of the architectural tender to design the new FC Barcelona Camp Nou stadium. The Jury panel comprised five members of the football club, three members of the Architects' Association of Catalonia and a representative of Barcelona City Council.

The **Nikken Sekkei + Pascual i Ausió Arquitectes** team stood out over the proposals from AECOM + B720 Arquitectes, AFL + Mateo Arquitectura, Arup Sport + Taller d'Arquitectura Ricardo Bofill, BIG + IDOM + BAAS Arquitectes, GENSLEER Sport + OAB, HKS + COX + Batlle i Roig Arquitectes, and POPULOUS + Mias Arquitectes + RCR Arquitectes.

The official presentation of the construction project for the new Camp Nou will take place at a public ceremony in the next few weeks.

The **permanent exhibition of Espai Barça** [2], located in the Paris Room and which opened at the same time as the presentation of the new Palau Blaugrana, will be rounded off with the winning project of the architectural tender for the new Camp Nou. The permanent exhibition will thus provide a wealth of detail on the **projects for the new Camp Nou; the new Palau Blaugrana, by the HOK + TAC Arquitectes team; and the new Miniestadi, by Batlle i Roig Arquitectes**. In the near future the exhibition will also be on show at the headquarters of the Architects' Association.

For more details about Espai Barça, visit the **FC Barcelona website** [3].
