From 20 January, the COAC's El Vallès branch office hosts the exhibition 'To the Catalan Masters', comprising eight lithographs by Antoni Tàpies on Guarro paper, published by Sala Gaspar in 1974.

It is a tribute to all the key figures of Catalan culture whom Tàpies supported during the years of Franco's dictatorship. It encompasses, by means of a great economy of elements, the different facets of knowledge. Science and art go hand-in-hand in a chromatic setting that brings us closer to the geographical context of Catalonia.
